*...a choice customized  
to your needs*

Constructed in Solid Bronze (as shown above)

- Bronze is known for its exceptional properties and superior resistance
- Its beauty stands the test of time

Constructed of carbon steel (see following models)

- Made from steel to which carbon has been added. Generally the proportion of carbon varies between 0.6% and 1%. This is the most common type of steel produced.
- This line of products includes caskets of various widths and lengths.
